

The map displays the Aichelberg mountain range in a brownish-yellow color, contrasting with the greyish-green of the surrounding forested areas. Key peaks are labeled, including Rosskopf, Hirschklippe, and Lehenkopf. The Brotenau valley is visible, along with the Lehenbach stream. The map is bordered by a pink line, and a small inset map in the top right corner provides a broader geographical context, showing the Aichelberg area's location within the Black Forest region.
